## Reliability of Dairy Products Prices Annual Estimates

**Procedures and Reliability:** The Dairy Product Prices program consists of 20 plants reporting 40 pound cheddar blocks, 16 plants reporting 500 pound cheddar barrels, 23 plants reporting butter, 38 plants reporting nonfat dry milk, and 23 plants reporting dry whey. There are 7 plants in the Minnesota/Wisconsin Region reporting 40 pound cheddar blocks and 10 plants in the Minnesota/Wisconsin Region reporting 500 pound cheddar barrels. Plants counts are by commodity, plants reporting multiple commodities are represented in each commodity.

Price information included in this report is provided each week by manufacturers of these products. Data are collected by fax and electronic mail each week for the previous week. The Agricultural Marketing Service (AMS) conducts on-site plant reviews of larger entities that account for 80 percent of the yearly reported product volume of each specified dairy product at least once annually. AMS also conducts plant verifications with one-half of the entities that account for the remaining 20 percent each year, visiting each such entity at least once every other year. Price information collected is for the (wholesale) point of sale for:

- 1) **Cheddar cheese in 40 pound blocks**, colored between 6 and 8 on the National Cheese Institute color chart, meeting Wisconsin State Brand, USDA Grade A, or better standards.
- 2) **Cheddar cheese in 500 pound barrels**, white, meeting Wisconsin State Brand, USDA Grade A, or better standards.
- 3) **Salted butter (80% butterfat)**, fresh or storage, in 25 kilogram and 68 pound boxes meeting USDA Grade AA standards.
- 4) **Non-fortified, nonfat dry milk** in 25 kilogram bags, 50 pound bags, totes, and tankers meeting USDA Extra Grade or USPH Grade A standards.
- 5) **Edible non-hygroscopic dry whey** in 25 kilogram bags, 50 pound bags, totes, and tankers meeting USDA Extra Grade standards.

A transaction is complete when the product is "shipped out" and title transfers. Re-sales of purchased product, forward pricing and intra-company sales are excluded.

Original data contained in this document refers to the last NASS published weekly information. All revised estimates are based on three additional data sources: Agricultural Marketing Service (AMS) verification data provided by AMS auditors, resubmitted data to correct inaccuracies uncovered by NASS during data analysis and/or discrepancy evaluation, and lastly resubmitted data inaccuracies discovered by the plant during internal review of program specification to comply with the mandatory reporting rules. The Dairy Products Prices Annual Summary re-summaries previously released information incorporating all verification data and any other resubmitted plant data previously not available during the four week revision period.

**Revision Policy:** Revisions to previous estimates are made to improve current estimates. The previous two calendar years of estimates for the weekly dairy products prices are subject to verification by AMS. No revisions are made after that date.
